Subject Mapping for the Bachelor of Business Information Systems

As you know, the previous school of Information Systems and Technology has joined with the School of Computer Science and Software Engineering and created the new School of Computing & Information Technology. The best effort has been made for this integration to cause only minimum interruption for the current students.
However, the old codes of some subjects have been replaced with new codes. In other words, these subjects will be discontinued and their equivalences will be run.
The list presented below shows the new subjects replacing the old subjects.

#	Old Subject		The Equivalent Subject	
	Code	Name	Code	Name
1	ISIT111	Programming Concepts	CSIT111	Programming Fundamental
2	ISIT100	Systems Analysis	CSIT114	Systems Analysis
3	ISIT105	Network and Communications	CSIT127	Communications and Network
4	ISIT112	Database	CSIT115	Data Management & Security
5	ISIT114	Object Oriented Programming	CSIT121	Object Oriented Programming and Design

8	ISIT351	Information Technology Project	CSIT321	Project
9	ISIT301	Professional Practice	ISIT313	Corporate Responsibilities in IT

It is expected that, the new codes will not affect students significantly. However, students enrolled in spring sessions 2012-2015 may find some mismatches when they want to enrol. The best advice for these students is that they stick to the plan of students enrolled in the autumn session of the same year as much as possible, and in each semester substitute the subjects which are not offered with their equivalence.
In any semester, if you find any problem in finding the equivalence of particular subject for enrolling, please try to replace it with some other subject which is part of your curriculum, and postpone the original subject to its next semester. In this case, you need to notice to the chain of prerequisites so that they cannot cause you any trouble later. You need also look at the table presented bellow (called Subject mapping for BBIS) to see when that subject, or its equivalence, is offered 2017.
This table has displayed the name of subjects in your curriculum with their equivalences offered in 2107.

Subject mapping for 2015 BBIS (no major) Handbook:
